BA 1150- 5(3-2-0)UT Introduction to Computers in Business

Instructor	Trevor Thomas	Phone	539-2824 (office)
Office	C309	E-mail	tthomas@gprc.ab.ca
Office Hours	Tuesday and Thursday 10:00 11:30 am or by appointment		

Prerequisite:

Required Text/Resource Materials:

Grauer, Microsoft Office 2007: Prentice-Hall, 2007.

THE TEXT WILL BE USED EXTENSIVELY.

COURSE

DESCRIPTION: This course is intended to familiarize the student with the use and application of computers in the solving of business problems. Students will be expected to develop a working knowledge of Microsoft Word, Excel, Access, and PowerPoint. This course also introduces the student to the Internet, Windows, and computer terminology.

COURSE

OUTLINE: Over the past few years both the public and private sectors have moved to streamline their operations. This is often done by reducing the complement of staff personnel which they employ. This move to the more efficient use of human resources has resulted in managers frequently being required to perform duties that were formerly performed by secretaries and stenographers. Indeed, it is no longer uncommon to see managers preparing their own reports and typing their own memos.

To meet these changing trends, graduates of this Business Administration program are expected to be fully conversant with word processing,

spreadsheets, databases, and presentation software along with other microcomputer software products.

Students are encouraged to use the computer where applicable, when completing assignments in all courses.

SCHEDULE:

Week 1

Computer Concepts and Office Fundamentals

Opening and saving a file, selecting text to edit, inserting and changing text

Moving and copying text, finding and replacing text

Understanding computer terminology and knowing the specifications when buying a computer

Week 2 – Week 4

Microsoft Word Introduction and Intermediate levels

Setting margins and specifying page orientation, inserting page breaks, adding page numbers, inserting headers and footers, creating sections, inserting cover pages, using find and replace, checking spelling and grammar, print options, customizing Word Applying font attributes, highlighting text, controlling word wrapping, copying formats using format painter, tabs and borders, columns, creating table of contents

Inserting and formatting tables, sorting and applying formulas to table data, inserting clip art and images to documents, inserting word art and symbols

Inserting comments in a document, tracking changes in a document, viewing documents side by side, mail merges

Week 5 – Week 8

Microsoft Excel Introduction and Intermediate levels

Describing and using symbols and order of precedence, displaying cell formulas, inserting and deleting rows and columns, using cell ranges, move, copy paste and auto fill cells, formatting and managing worksheets, page options for printing

Creating and copying formulas, using relative and absolute cell addresses, using auto sum, inserting basic statistical functions, using date functions, using the IF function, using the VLOOKUP function, using the PMT function, using the FV function

Choosing a chart type, creating a chart, modifying a chart, enhancing a chart with graphic shapes, embedding charts, printing charts

Freezing rows and columns, hiding and unhiding rows columns and worksheets, protecting a cell and worksheet, sorting and filtering data

Week 9 Week 12

Microsoft Access Introduction and Intermediate levels

Creating filters, sorting table data on one or more fields, knowing when to use Access and Excel to manage data, using the relationship window, understanding relational power

Designing data, creating tables, understanding table relationships, sharing data with Excel, establishing table relationships, creating a query, specifying criteria for different data types, copying and running a query, using the query wizard

Understanding the order of precedence, creating a calculated field in a query, creating expressions with the expression builder, creating and editing access functions, performing date arithmetic

Week 13

Microsoft PowerPoint

Using slide layouts, applying design themes, reviewing a presentation, adding a table and clip art, using transition and animation, adding sound

GRADING:

As you can see, this course will cover a large volume of material. For some students, this material will be completely new while other will have a background in various aspects of the material presented.

Business Administration and Commerce Department

Grading Conversion Chart

Alpha Grade	4-point Equivalent	Percentage Guidelines	Designation
A ⁺	4	90 100	EXCELLENT
A	4	85 89	
A	3.7	80 84	FIRST CLASS STANDING
B ⁺	3.3	76 79	
B	3	73 75	GOOD
B	2.7	70 72	
C ⁺	2.3	67 69	SATISFACTORY
C	2	64 66	
C	1.7	60 63	
D ⁺	1.3	55 59	MINIMAL PASS
D	1	50 54	
F	0	0 49	FAIL

PLAGIARISM:

The penalty for plagiarism is SEVERE. It can consist of EXPULSION from the program and institution or receiving A grade of ZERO on a course.
